

Michigan Chapter

APCO International

October 27, 2011

Mr. Michael Smith,

The APCO Fall Conference committee would like to thank you for taking time out of your schedule to speak at our fall conference. Your presentation "NG 911 Interoperability : Radio Over IP", was very well received. It is so nice to have the ever changing technologies that make our jobs easier explained to us on levels that we can understand. It enhances our partnerships with our vendors when that comprehension is there. We hope that you enjoyed your time at the conference center and look forward to a continued partnership.

Sincerely,

Rich Feole - Chapter President

Sandra Nielsen - Conference Chair

Kim Ostin - Conference Chair
