

# EquatureInSight

**Real-Time GPS Location**  
**Real-Time Video Feed**  
From the 911 Caller to the Dispatcher

InSight provides an intuitive and user-friendly interface that allows for visual, audible, and real-time location confirmation of events *before* the first responders arrive to the emergency scene.

## Locate the 911 Caller

- **Locate the 911 Caller more quickly and accurately than traditional ALI.**
- **Location accuracy within 6 meters.**
- **View GPS Location in Real-Time**
- **Map and Satellite View**
- **Zoom In/Out Functionality**

## Evaluate the Situation

- **Get Eyes on the Scene before first responders arrive.**
- **Receive vital information from callers who are unable to speak due to injury or disability.**
- **Evaluate the emergency situation more quickly and accurately.**
